

Yunxiao Wang

Ph.D. Candidate, School of Software, Shandong University

yunxiao.wang@foxmail.com · yunxiao-wang.github.io · Google Scholar · GitHub · ORCID

Research Interests

Multimodal large language models, affective computing, and conversational AI.

Education

Shandong University

Ph.D. in Artificial Intelligence, School of Software

Sep 2022 – Present

Jinan, China

- Advisors: Prof. Liqiang Nie and Prof. Meng Liu.

Shandong University

M.S. in Computer Technology, School of Computer Science and Technology

Sep 2019 – Jun 2022

Jinan, China

- Advisors: Prof. Liqiang Nie and Prof. Meng Liu.

China University of Petroleum (East China)

B.S. in Internet of Things Engineering

Sep 2015 – Jun 2019

Qingdao, China

- Ranked 3/58; admitted to Shandong University by recommendation.

Publications

[†] *equal contribution.*

- [1] **Yunxiao Wang**, Meng Liu, Wenqi Liu, Xuemeng Song, Bin Wen, Fan Yang, Tingting Gao, Di Zhang, Guorui Zhou, Liqiang Nie. **TIME: Temporal-Sensitive Multi-Dimensional Instruction Tuning and Robust Benchmarking for Video-LLMs**. *AAAI*, 2026. (CCF-A) **Oral**. [paper] [code]

Experience

Singapore Management University — CoAgent Lab

Visiting Research Student, School of Computing and Information Systems

Feb 2026 – Present

Singapore

- Recast personality assessment as sequential information-theoretic inference, so that each question is chosen by expected information gain and each dimension stops adaptively; the resulting assessor matches questionnaire-style baselines while cutting the number of dialogue turns required. Under review.
- Designed and shipped KakiPal (kakipal.com), an AI tutor now used in a live university course, covering everything from courseware parsing and quiz import to deployment, monitoring and release.

Kuaishou Technology — Foundation Model & Applications Department

Research Intern

Jul 2024 – Dec 2025

Beijing, China

- Curated a five-dimension temporal instruction-tuning set and a multi-task prompting scheme that reuses existing instruction data, removing the need for extra temporal annotation; improved temporal understanding on four video-LLMs across six benchmarks. *AAAI 2026, Oral*.
- Co-designed an agentic thinking-with-videos model that grounds, clips and answers in one loop, with a masking strategy for multi-turn supervision and rewards shaped to resist reward hacking. *ICML 2026*.

Shandong University — Zhiyang Innovation Technology Co., Ltd.

Jun 2019 – Feb 2020

Core member, joint project on transmission-line inspection

Jinan, China

- Delivered a lightweight hidden-danger detector for transmission corridors, trading Faster R-CNN backbones for ShuffleNet and MobileNet to fit on-site inspection hardware.

Weichai Power Co., Ltd. — Big Data Department

Oct 2018 – May 2019

Intern, product nameplate text recognition

Weifang, China

- Automated product-information entry by chaining scene-text detection (EAST, CTPN) with CRNN recognition, replacing manual transcription of irregularly arranged nameplates.

Patents and Standards

Chinese invention patents.

- [P1] **Multimodal dialogue emotion recognition method and system.** CN117271743B, 2025.
- [P2] **User behaviour prediction method, system, medium and device for smart homes.** CN120747839B, 2025.
- [P3] **Temporally enhanced video question answering method and system.** CN119670896B, 2025.
- [P4] **Commonsense-enhanced candidate generation method and system for video action segments.** CN118898797B, 2024.
- [P5] **Video clip retrieval method, and training method and apparatus for a video clip retrieval model.** CN113590881B, 2024.
- [P6] **Quantization method for multimedia question-answering models on smart-home edge devices.** CN120805980A, filed 2025, under examination.

Standards, as a co-drafter.

- [S1] **Technical specification for industrial AI vision online inspection systems for the power industry.** SJ/T 12100-2026, industry standard, 2026.
- [S2] **Technical specification for industrial AI vision online inspection systems for transmission lines.** T/CESA 1298-2023 / T/CES 247-2023, group standard, 2023.

Professional Service

Conference reviewer: AAAI, ACM MM, ACL, NeurIPS.

Journal reviewer: IEEE TKDE, IEEE TCSVT, IEEE TMM, Information Sciences.

Honors and Awards

- Graduate Academic Scholarship, Shandong University — First Prize (×2), Second Prize.
- Academic Scholarship, China University of Petroleum (East China) — First Prize, Third Prize; “Shengli Oil Talent” and “Outstanding Achievements in Scientific and Technological Contributions” Scholarships.
- Outstanding Graduate, China University of Petroleum (East China), 2019.
- National Second Prize, 14th “Bochuang” Cup National Embedded System Design Competition, 2018.
- First Prize (2017) and Third Prize (2018), Shandong Region, National “NXP” Cup Intelligent Car Competition.
